

Statement of Investment Policy, Objectives and Guidelines

GENERAL INFORMATION

The West Hills Community College Foundation is a 501(c)3 educational trust fund established as a community college district foundation in 1983. This Foundation provides support of educational excellence as a function of the mission of the College and its priorities. Contributions to *WHCC* Foundation are in the form of gifts from individuals, families, corporations, and foundations.

The Statement of Investment Policy is required to be reviewed annually by the Foundation's Board of Directors.

SCOPE OF THIS INVESTMENT POLICY

This statement of investment policy reflects the investment policy, objectives, and constraints of the entire *WHCC* Foundation.

Furthermore for the purpose of this investment policy it is understood that endowment accounts are invested in the same manner as general foundation funds but are tracked separately for accounting purposes. Additionally the foundation has a policy (the spending policy) of distributing to beneficiaries each year a percentage of the endowments funds average fair value over the prior 12 quarters through the year-end preceding the year in which the expenditure is planned. In establishing the percentage for distribution, the foundation considers the long-term projected return on its endowment. The foundation has established a goal of a distribution rate of **up to 5%** and expects over the long term the current spending policy will allow its endowment to grow at an average of 3% annually. Actual returns in any given year will vary from the amount distributed. This spending policy supports the foundation's objective to maintain the purchasing power of endowment assets.

The endowment spending policy is reviewed annually by the Foundation's Board of Directors, which has the discretion of not awarding scholarships in years where the endowment principle would be eroded.

PURPOSE OF THIS INVESTMENT POLICY STATEMENT

This statement of investment policy is set forth by the Investment Committee of the *WHCC* Foundation in order to:

1. Define and assign the responsibilities of all involved parties.
2. Establish a clear understanding for all involved parties of the investment goals and objectives of Fund assets.
3. Offer guidance and limitations to all Investment Managers regarding the investment of Fund assets.
4. Establish a basis for evaluating investment results.
5. Manage Fund assets according to prudent standards as established in common trust law.
6. Establish the relevant investment horizon for which the Fund assets will be managed.

In general, the purpose of this statement is to outline a philosophy and attitude, which will guide the investment management of the assets toward the desired results. It is intended to be sufficiently specific to be meaningful, yet flexible enough to be practical.

DELEGATION OF AUTHORITY

The Investment Committee of the *WHCC* Foundation is a fiduciary, and is responsible for directing and monitoring the investment management of Fund assets. As such, the Investment Committee is authorized to delegate certain responsibilities to professional experts in various fields. These include, but are not limited to:

GENERAL INVESTMENT PRINCIPLES

1. Investments shall be made solely in the interest of the beneficiaries of the Fund.
2. The Fund shall be invested with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the investment of a fund of like character and with like aims.

3. Investment of the Fund shall be so diversified as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so.
4. The Investment Committee may employ one or more investment managers of varying styles and philosophies to attain the Fund's objectives.
5. Cash is to be employed productively at all times, by investment in short term cash equivalents to provide safety, liquidity, and return.
6. All contractual arrangements related to the management of the Fund's investments shall be entered into on a "may be terminated immediately upon written notice" basis.

INVESTMENT MANAGEMENT POLICY

1. Preservation of Capital - Consistent with their respective investment styles and philosophies, investment managers should make reasonable efforts to preserve capital, understanding that losses may occur in individual securities.
2. Risk Aversion - Understanding that risk is present in all types of securities and investment styles, the Investment Committee recognizes that some risk is necessary to produce long-term investment results that are sufficient to meet the Fund's objectives. However, the investment managers are to make reasonable efforts to control risk, and will be evaluated regularly to ensure that the risk assumed is commensurate with the given investment style and objectives.
3. Adherence to Investment Discipline - Investment managers will adhere to the investment management styles for which they were hired. Managers will be evaluated regularly for adherence to investment discipline.

GOAL OF FOUNDATION

The Investment Committee feels that grants to be made in the future are as important as grants made today. This is consistent with the philosophy that this Foundation is to exist in perpetuity, and therefore, should provide for grant making in perpetuity. To attain this goal, the overriding objective of this foundation is to maintain purchasing power. That is, net of spending, the objective is to grow the aggregate portfolio value at the rate of inflation over the Foundation's investment horizon. The Foundation's specific investment objectives will be established later in this document.

ATTITUDE TOWARD GIFTS

Future giving to this Foundation is expected to be inconsistent, and therefore, unpredictable. As a result, the Investment Committee has set an investment strategy with the objective of maintaining purchasing power of Foundation assets before consideration of gifts. Accordingly, future giving will serve to increase purchasing power. Therefore, expectations may be expressed by the following equation:

Total Return = Spending + Inflation, while Giving = Increase in Purchasing Power

SPENDING POLICY

The Board of Directors will attempt to balance the Foundation's shorter-term grant making obligations with its goal to provide grants into perpetuity, and therefore design a spending policy which is flexible. Since expected investment returns from "riskier" portfolios are not consistent and predictable, the Board of Directors feels that shorter-term spending in dollar terms must be flexible enough to endure periods of underperformance without excessive deterioration of real principal. Therefore, this Board of Directors may tend toward an investment strategy seeking higher long-term investment returns than would be the case if grant making from year to year were less flexible. **The Board of Directors will set minimum spending objectives per applicable regulations.**

INVESTMENT OBJECTIVES

In order to meet its needs, the investment strategy of the WHCC Foundation is to emphasize total return; that is, the aggregate return from capital appreciation and dividend and interest income.

Specifically, the primary objective in the investment management for Fund assets shall be:

Income and Growth -To achieve a balanced return of current income and modest growth of principal.

VOLATILITY OF RETURNS

The Foundation Board acting as a committee of the whole understands that in order to achieve its objectives for Fund assets, the Fund will experience volatility of returns and fluctuations of the market value. To offset some of the expected volatility, the Fund shall be so diversified as to minimize the risk of large losses through difficult periods of the market cycle. The Foundation Board acting as a committee of the whole also realizes that the Fund's return objective is its primary concern and that the Fund may experience periods of absolute negative returns, in order to reach the Fund's long term goals.

LIQUIDITY

To minimize the possibility of a loss occasioned by the sale of a security forced by the need to meet a required payment, the Investment Committee will periodically provide investment advisor with an estimate of expected net cash flow. The Investment Committee will notify the investment advisor in a timely manner, to allow sufficient time to build up necessary liquid reserves. At least 3-6 months of cash flow needs will be maintained in the portfolio at any given time. On a quarterly basis, the Investment Committee will review and anticipate the future quarter's liquidity needs.

MARKETABILITY OF ASSETS

The Investment Committee requires that all of Fund assets except real estate be invested in liquid securities, defined as securities that can be transacted quickly and efficiently for the Fund, with minimal impact on market price.
